MACH[®] 3

Coin Sorter/Counter/Packager

Fast, compact coin processing suitable for tabletop or portable applications

MACH[®] 3

Coin Sorter/Counter/Packager

The De La Rue **MACH 3** is a versatile, cost-effective coin sorter, counter and packager all in one!

Flexible, Fast and Reliable

The **MACH 3** is fast, accurate, reliable and easily serviceable, simplifying coin processing for any business that currently counts, sorts and wraps coins by hand or uses a coin packager.

At 1,500 coins per minute and sorting capabilities of up to six denominations, the **MACH 3** is one of the fastest coin sorters/counters in its class. Its compact size utilizes minimal counter space and fits into virtually any environment. The **MACH 3** has a built-in carrying handle with an optional cover/carry bag that protects the unit and keeps the standard coin drawers securely in position during transport.

Easy to Use

Giving users the ability to easily change settings to meet their individual needs, selectable bag stops, batch and grand totals are accessed via a direct keypad. A two-line alphanumeric display conveys relevant operations messages at a glance.

Multiple Functionality and Options

The **MACH 3** is one of the most fully-featured coin sorters available on the market today. In addition to sorting coin into drawers and bags (Photo #4), with exact bag stops the **MACH 3** can also be equipped with a coin tubing feature that allows the user two options:

1. The ability to sort coin first and then follow-up by wrapping individual denominations
OR
2. The capability to sort and wrap coin in one step
(Photos #1, #2 and #3)

The tubing attachments have been designed with a base that allows the first coin to fall flat into the paper tube and support it, freeing the user from having to stand and hold the paper coin wrap.

Another optional feature of the **MACH 3** is the cash till sorting kit (Photo #5), consisting of a funnel and manifold. This is the ultimate in convenience for retailers who count their cash register drawers frequently, as it saves them time by quickly and accurately counting coins and sorting them into the appropriate drawer locations.

De La Rue Cash Systems coin and currency processing products are the direct result of 100 years experience in the design, manufacturing and distribution of world class cash handling solutions. Worldwide service and support is provided through De La Rue Cash Systems' network of branch offices and authorized distributors.
