MACH[®] 6

Coin Sorter/Counter

With processing speeds of up to 3,000 coins per minute, the De La Rue **MACH 6** is one of the fastest coin sorter/counters available in its class. The **MACH 6** is capable of sorting up to eight denominations of coin. With its large tilting inspection pan, holding up to 4,500 coins, coupled with its unique autofeed system, the **MACH 6** enhances productivity through efficient coin processing.

Easy to Use

A two-line alphanumeric display conveys operational messages at a glance. Selectable bag stops, batch and grand totals are easily accessed via the direct keypad.

Compact

Utilizing minimal counter space the **MACH 6** can be accommodated into virtually any work environment. Its superior design offers functionality, efficiency and visual appeal.

Coin Detection

With the addition of the Enhanced Coin Detection option, utilizing De La Rue's Coin Signature Detection System (CSDS[™]), the **MACH 6** becomes the ideal machine to assist in the rejection of foreign or counterfeit coins.

This cost effective option increases accountability while maintaining the highest degree of accuracy.

Multiple Functionality and Options

The **MACH 6** is easily adaptable for any medium volume application. The Management Information Control System (MICS) option provides three levels of memory and allows other media to be entered, such as checks, rolled coin and notes, thus ensuring a comprehensive audit trail.

With four optional RS232 ports, the **MACH 6** can interface to other cash settlement systems and peripheral equipment, such as currency counters, enabling complete cash reconciliation.

De La Rue Cash Systems coin and currency processing products are the direct result of over 100 years of experience in the design, manufacturing and distribution of world class cash handling solutions. Worldwide service and support is provided through De La Rue Cash Systems' network of branch offices and authorized distributors.
