

SCAN COIN 350/360 Coin Counters

 **SCAN COIN**

The latest coin counters from SCAN COIN, SC 350/360, fill an important gap between heavy-duty counters and small back-office machines. These high-speed coin counters combine superior versatility with many advanced features, which are fitted as standard. The difference between the two is that SC 350 includes a manual hopper, while SC 360 has a larger, automatic hopper with filling.

A universal partner

Whether you want to count, sort, verify or bag volumes of coins or tokens, you have a reliable and flexible partner in SC 350/360. Separate adjustments for coin or token diameter and thickness make the SC 350/360 completely universal. Despite their relatively compact size, these are both high-performance units positioned to meet handling needs between heavy-duty counters and small back-office machines.

Versatility at its best

Due to their range of flexible functions, SC 350/360 are truly versatile coin counters. The serial interface makes it possible to monitor and control the SC 350/360 from a PC. This offers many convenient possibilities, e.g. a controlled cash-out unit for casinos, etc.

A large number of accessories and 7 pre-programmable quantity stops (plus 1 continuous) make the SC 350/360 highly effective filling machines, whether applied to coin tubes, big bags or small bags.

Easy access and handling

Compared with competing machines, SC 350/360 provides dramatically improved access to the coin rail, making it easy to open the hatch for checking or service. A non-volatile memory allows storage of data on counted coins, and electronic sensing technology assures high accuracy and low noise. SCAN COIN customers will also recognize, and benefit from, our standard interfaces and functions.

TECHNICAL SPECIFICATION

	SC 350	SC 360
WIDTH	295 mm/12"	295 mm/12"
DEPTH	480 mm/18.9"	480 mm/18.9"
HEIGHT	250 mm/9.8"	380 mm/15.0"
WEIGHT	17.5 kg/38.5 lbs	19.5 kg/43.0 lbs
VOLTAGE	110/230 V, 60/50 Hz	110/230 V, 60/50 Hz
POWER	100 W	120 W
SPEED	up to 3,000 coins/min.	up to 3,000 coins/min.
DIAMETER RANGE	15-38 mm/0.59-1.50"
